

# New for 2016! Choice 90<sup>Rx</sup>

Save time and get a three-month supply of maintenance medications at a pharmacy near you.

Starting January 1, 2016, members who have Harvard Pilgrim prescription drug coverage will be able to purchase 90-day supplies of maintenance medications at retail pharmacies that participate in MedImpact's Choice90<sup>Rx</sup> program.

## What are maintenance medications?

Generally, these are medications that are taken continually for long-term treatment of chronic conditions. Some examples include:

- Antidepressants
- Asthma/COPD medications
- Cholesterol-lowering drugs
- Diabetes medications
- Estrogen therapies
- Heart medications
- High blood pressure medications
- Oral contraceptives
- Seizure medications
- Thyroid medications

Members will pay three times their applicable cost-sharing amount for a 90-day supply of maintenance medications at participating retail locations.

## HOW TO GET STARTED

When you are ready for your next refill in 2016, ask your provider for a 90-day prescription and bring it to a participating retail pharmacy of your choice. Most of our current participating pharmacies participate in Choice90<sup>Rx</sup>. Starting in January, use the online Pharmacy Locator at [www.harvardpilgrim.org/rx](http://www.harvardpilgrim.org/rx) to find a participating Choice90<sup>Rx</sup> pharmacy near you.

Harvard Pilgrim  
HealthCare
